- **Presidential Debate on Tuesday. Who won?**
  - **Clearly a prepared and poised Harris had the edge when she bated Trump on his Rallies. He responded as he always does with name calling. Not a good night for him.**

She once described herself as a "proud Islamophobe".**

- A funny aside...There were bets about whether they would shake hands
- Trump looked angry the entire time
- Kamala and Trump had never met before the debate
- **Trump's sentencing date rescheduled**
  - Voters will now head to the polls before former President Trump is sentenced in his New York hush-money case.

Friday, Justice Merchan moved the sentencing date from **Sept. 18 to Nov. 26** to “avoid the appearance” that the decision “has been affected by or seeks to affect the approaching Presidential election.”

The rescheduling is a win for Trump's legal team, which was pushing to delay on grounds of election interference. Trump said the “witch hunt” was postponed because “everyone realizes... I did nothing wrong”; prosecutors deferred to the judge's timeline but noted that the jury “swiftly and unanimously convicted” Trump.

The GOP nominee's legal calendar now looks clear. His Florida classified documents case was dismissed; the SCOTUS's immunity ruling delayed the D.C. federal election interference case; and his Georgia election case is also stalled.
